SAHIL SINGH

Data Analyst | Business Analyst | SQL, Python, Power BI, Tableau, Excel

Delhi, India | +91 9667428133 | sahilsingh.data@gmail.com | linkedin.com/in/sahil-singh-762a4b388 | github.com/Sahil-Singh01

PROFESSIONAL SUMMARY

Data Analyst with hands-on experience in SQL, Python, Power BI, Tableau and Advanced Excel across data cleaning, EDA, statistical testing, KPI reporting and dashboard development. Built three end-to-end analytics projects: a 10-phase telecom churn and retention platform (MySQL, scikit-learn, RAG), a supply chain pipeline over 180,000+ records ($36.8M revenue analyzed) and a Power BI sales dashboard. Trained 100+ learners in Python, SQL, Excel, Power BI and Tableau.

CORE SKILLS

Languages & Analysis: Python (Pandas, NumPy, Matplotlib, Seaborn, SciPy, scikit-learn), SQL (MySQL, CTEs, Window Functions, Subqueries, Joins, Views, Stored Procedures)

BI & Reporting: Power BI (DAX, Data Modelling, Power Query), Tableau, Advanced Excel (Pivot Tables, XLOOKUP, SUMIFS, INDEX-MATCH, Macros), MIS Reporting, KPI Dashboards

Analytics & Statistics: EDA, Hypothesis Testing (t-test, Chi-Square), A/B Testing, Logistic Regression, Random Forest, K-Means Segmentation, Forecasting, Pareto Analysis, Root Cause Analysis

Data Engineering & Tools: ETL Pipelines, Data Cleaning, Feature Engineering, 3NF Database Design, Data Validation, Git, GitHub, Jupyter, MySQL Workbench, Streamlit, RAG, Generative AI, Prompt Engineering

PROJECTS

RetainIQ: Telecom Customer Retention Intelligence Platform | MySQL, Python, Streamlit, RAG *GitHub: RetainIQ*

- Built a 10-phase analytics platform on 7,043 customer records: data-quality audit, cleaning, MySQL warehouse (fact/dimension tables, views, window functions), EDA, statistical tests and churn modeling (Logistic Regression, Random Forest).
- Segmented customers with K-Means (3 segments, stability ARI ~0.99) and quantified **$3.68M historical revenue at risk** at 26.5% churn; flagged an Emerging Risk segment (46% of customers, 47% churn) and San Diego as top market (64.9% churn).
- Designed a revenue-at-risk priority score, recovery scenarios (5% to 30%) and benchmark-gap analysis for retention strategy; built a hybrid RAG + SQL Streamlit assistant (Ollama, Qwen3) that answers business questions with cited evidence.

Supply Chain Analytics Pipeline | Excel, MySQL, Python, SQL

- Built a pipeline (Excel cleaning, normalized MySQL, Python EDA) across 180,000+ order line items; designed a 3NF schema (6 tables) with indexes and views and wrote 60+ queries using CTEs, window functions and subqueries.
- Delivered insights on **$36.8M revenue** across 65,752 orders at ~10.8% margin; traced a 100% late-delivery rate on First Class shipping to an SLA-design mismatch and isolated fraud risk in TRANSFER payments (8.2% vs 0%).

Blinkit Grocery Sales Performance Dashboard | Power BI, DAX, Excel

- Built an interactive Power BI dashboard on 8,500+ records with KPI cards and dynamic slicers (Outlet Size, Location Type, Item Type) for self-service analysis.
- Found Supermarket Type1 outlets drove ~69% of sales (INR 1.86 Cr), Medium outlets 63% of revenue, and Tier 3 outsold Tier 1 by 70%+.

WORK EXPERIENCE

Data Analyst Intern, IFDA Institute *Jan 2026 – Apr 2026*

- Trained 100+ aspiring data analysts in Python, SQL, Excel, Power BI and Tableau through project-based instruction across the full analytics workflow.
- Simplified EDA, data wrangling, statistical testing and visualization concepts; evaluated learner proficiency and gave individual feedback.

EDUCATION

Bachelor of Science (BSCG), Indira Gandhi National Open University, Delhi *2022 – 2026*

CERTIFICATIONS

Google Data Analytics Professional Certificate (Coursera) | Microsoft Business Analyst Professional Certificate | Data Analyst and Visualisation Certification (IFDA Institute)
